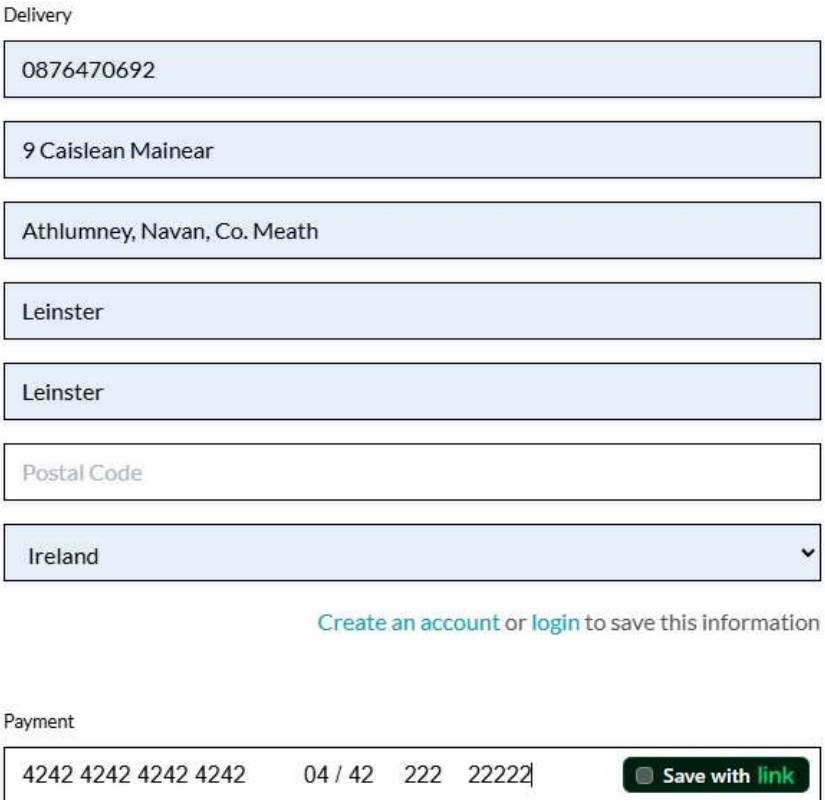
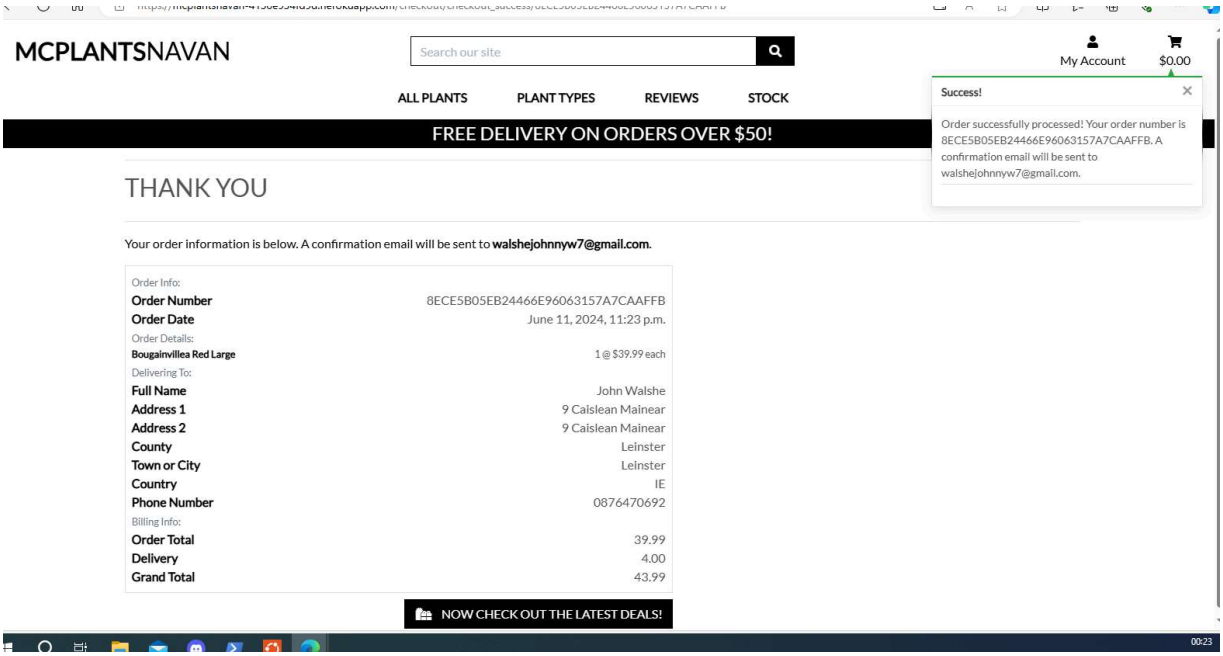
STRIPE PAYMENTS TESTING

Testing on deployed Heroku App: [McPlants Navan (mcplantsnavan-4138e934fd9d.herokuapp.com)](https://mcplantsnavan-4138e934fd9d.herokuapp.com)

- Added one Bougainvillea Red Large to the cart at a price of $39.99.
- Then clicked go to secure checkout
- Delivery cost included at $4 and grand total shown as $43.99
- Clicking on 'Secure Checkout'
- Entered the following:

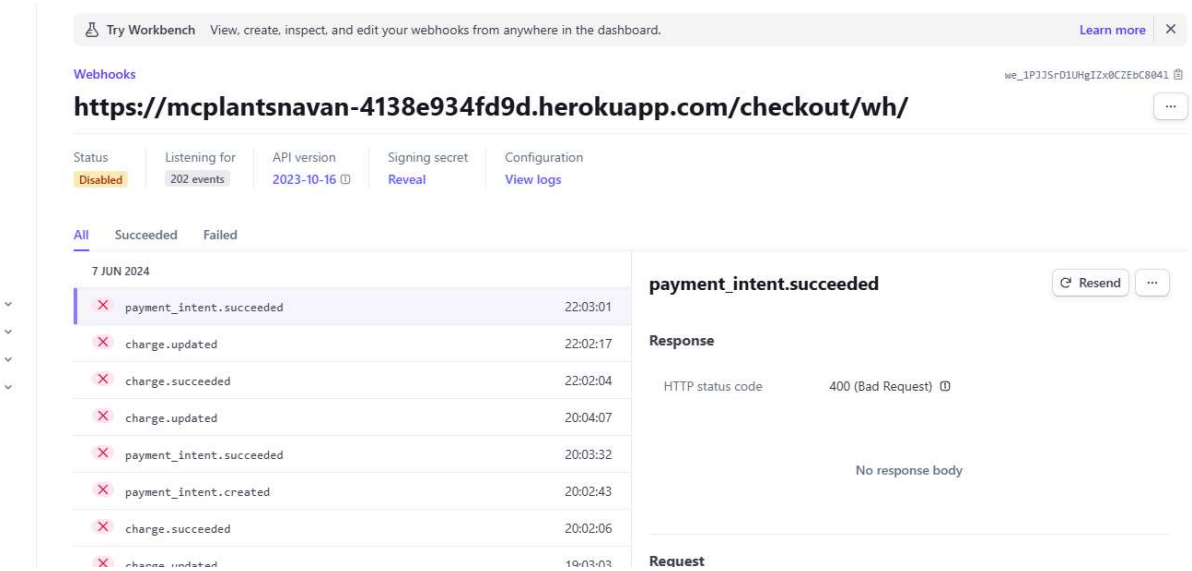


- Then clicked 'complete order'
- Message stating order was successful and email sent

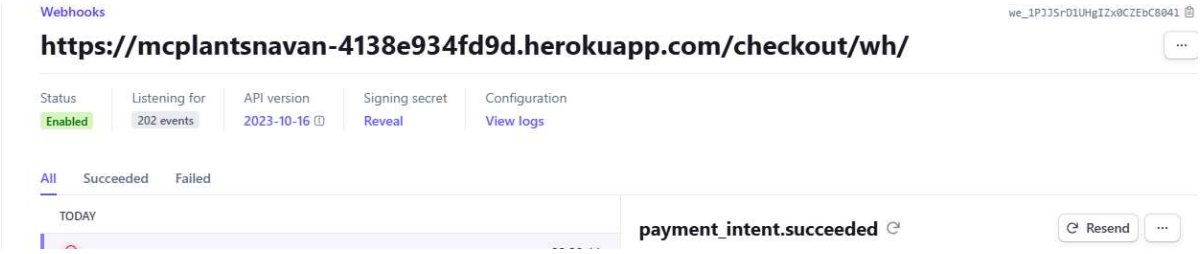


-
- BUG: EMAIL NOT RECEIVED
- Payment noted on stripe dashboard

Webhook status on stripe is disabled



Webhook became disabled due to lack of use but I could re–enable the endpoint using the stripe uli.



Webhook now successful
