Bug - can't use category column on plants table. Currently, loaddata works without the category col in plants.json.

I can change the text in plants.json & this changes what's displayed on the local site- however this is a superficial change.

leeve   Just testing if I can change the text   Liz Claib
                                                                          Straight

Below is a model of my databases

I'll add a category column to my plants.json

```
 3      "pk": 1,
 4      "model": "plants.plant",
 5        "fields": {
 6          "sku": "pp5001340155",
 7          "name": "Just testing if I can change the text",
 8          "description": "Bootcut jeans in our just-right original fit are comfortable and look gre
 9          "price": 53.99,
10          "rating": 4.6,
11          "category": 1,
12          "image_url": "https://i.postimg.cc/Ff5jTr2f/bougainvillea-00044.jpg",
13          "image": "bougainvillea_00044.jpg"
14        }
15      },
16      {
```

Unexpectedly, this didn't cause an error and the page rendered fine with this plant there

```
   ➤  vim plants.json
